Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	[TYPE PROGRAM NAME HERE]	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
The user will input a three digit number into the script.	The user will calculate the hundreds number, tenths number, and ones number.	The user will see the number broken up. It will show the user's number he imputed, it would look something like this. 3 is hundreds place, 2 is in tenth place, and 1 is in the ones place.
