Credit Name:CSE 2110 Procedural Programming 1
Assignment Name: Mastery, Investment

Error Log Entry

What error message did you encounter (if any)? I forgot to add int year. so it kept showing a red line under year everytime i spelled it.

What unexpected behavior did your program exhibit? Nothing really

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.) I forgot to put int for year so it messed it up

Include a screenshot of specific lines of code.

```
public static void main(String[] args)
{
    int years;

    // Set the starting investment
    double investment = 2500.0;

    // Set the target amount
    double target = 5000.0;

    // Set the annual interest rate
    double rate = 0.075;

    // Count the number of years
     years = 0;

    // Calculate interest each year
    while (investment < target) {
        investment = investment * (1 + rate);
        years++;
```

How did you fix the issue? I did int year. and it fixed everythinh

Provide the corrected code or solution using a screenshot.

```
int years;
```
